

MATÍAS NICOLÁS PRTENJACA

FRONTEND DEVELOPER

ABOUT ME

I started my path in IT by entering systems engineering at UTN, where I learned about logic. Then I decided to go to the tertiary of design and web development at Da Vinci, which gave me a great aesthetic look and laid my foundations as a designer. Now I mix logic and design to focus on the front end.

TECHNOLOGIES

Redux	Node
React	Express
JQuery	PostgreSQL
Javascript	GitHub
Tailwind	Photoshop
Bootstrap	Illustrator
SASS	After Effects
CSS	
HTML

OTHERS

Conversational English
I like skateboarding and padel.

EXPERIENCE

Administrative

Fundación Sales 5 years

I started working as a cadet mailing packages, doing inventories, assisting my colleagues in the office. And now for 3 years I've been helping with donor services by updating the database. I also help with the administration of invoices and expenses.

Digital Designer

Freelance 1 years

With the design base that gave me to study at Da Vinci I deepened my knowledge in a self-taught way while doing work for different clients who needed to give an image and aesthetics to their songs / albums / events. It taught me how to deal with a client and have well defined the work to be done.

STUDIES

Full Stack Dev

SoyHenry

March 2022 - Current

Front End Dev

CoderHouse

May 2021 - October 2021

Web Design

Da Vinci School

August 2016 - December 2019

PROJECTS

Movie App

Made with: React, Redux, SASS, IMDb API.

Movie search engine using the IMDb API, allows you to add your favorite movies to a list and see the details of each one.

<https://github.com/nicoprten/np-imdb-movies-app>

To Do App

Made with: React, LocalStorage, SASS, Material UI.

To-do list app, you can add them, mark them as finished, delete them, filter them by done or not done and sort them as you like.
